

Jeff McColloch

Principal Consultant, McColloch Consulting

Driven by a genuine delight in seeing teams and leaders succeed, Jeff partners with leaders to make their organizational health a competitive advantage. Jeff works with leaders and teams who are smart enough to be effective but are not reaching their full potential due to team health challenges. He offers insight, experience and a proven team health improvement process that brings value to teams who have struggled to solve these problems on their own.

Jeff brings 25 years of coaching and team effectiveness experience with engineering, sales, business operations and human resources leaders at Intel. In 2016, Jeff started his own team effectiveness consulting and leadership coaching practice, serving a wide variety of leaders in Fortune 500 companies, top 20 universities, start-ups, venture capital firms, nonprofits and faith-based organizations.

Clients include:

- Google
- Microsoft
- GE Healthcare
- Welbe Health
- Legacy Venture
- Duke University
- Stanford University

He has partnered with hundreds of high-achieving leaders using a practical, highly collaborative approach to develop their skills, increase team cohesion, and enhance strategic clarity and alignment. Jeff's authentic style quickly builds trust and helps leaders candidly assess their real challenges and choose focused actions that accelerate their impact and influence.

Jeff resides in Silicon Valley and interests include coaching young adults, watching sports, listening to inspiring podcasts and spending time with his wife and adult-aged children.
